

Commission Regulation (EU) 2017/460 of 16 March 2017 establishing a network code on harmonised transmission tariff structures for gas (hereinafter referred to as „TAR NC“)

Art. 30(2)(a)(i) of the TAR NC – Information regarding the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period and for the tariff period for which the information is published

In line with the Article 30(2)(a)(i) of the TAR NC the following information should be published:

„the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period and for the tariff period for which the information is published“

The transmission system operator eustream, a.s. according to Art. 30(2)(a)(i) of the TAR NC publishes the difference in the level of transmission tariffs for the same type of transmission service applicable for the prevailing tariff period (calendar year 2024) and for the tariff period for which the information is published.

Entry	Actual tariff level (year 2024) [€/ (MWh/day)/year]	Final Reference Prices Tariff level (year 2025) [€/ (MWh/day)/year]	Difference
Lanžhot	134.61	365.0	230.39
Baumgarten	134.61	365.0	230.39
Veľké Zlievce	134.61	365.0	230.39
Výrava	134.61	365.0	230.39
Exit	Actual tariff level (year 2024) [€/ (MWh/day)/year]	Final Reference Prices Tariff level (year 2025) [€/ (MWh/day)/year]	Difference
Lanžhot	187.31	365.0	177.69
Baumgarten	187.31	365.0	177.69
Veľké Zlievce	187.31	365.0	177.69
Výrava	187.31	365.0	177.69

Note: The comparison contains only information for the EU Interconnection Points.¹ The reserve prices for other points than EU Interconnection Points are based on the reference prices set by the price decision No. 0040/2019/P dated 29 May 2019 (valid for the period of calendar years 2022-2024) and price decision No. 0001/2025/P dated 5 June 2024 (valid for the period beginning on 1 January 2025), but their final determination is based on a different methodology based on national legislation, for this reason they are not part of the comparison.

¹ Entry/exit points Lanžhot, Baumgarten, Veľké Zlievce and Výrava are interconnection points according to the Commission Regulation (EU) 2017/459 of 16 March 2017 establishing a network code on capacity allocation mechanisms in gas transmission systems and repealing Regulation (EU) No 984/2013 (hereinafter referred to as „EU Interconnection Points“).

For the period of calendar years 2022-2024 the tariffs for EU Interconnection Points including the methodology of their calculation have been set by the price decision of the Regulatory Office for Network Industries No. 0040/2019/P as of 29 May 2019. According to the points 4. and 11.1. of the relevant price decision, the Regulatory Office for Network Industries determined the final reference prices after benchmarking application for the year 2022. According to the point 11.1., the Regulatory Office for Network Industries determined that in subsequent years the final reference prices after the benchmarking application will be adjusted by the index $IR_{(t-2)}$ – the inflation index in the European Union published by Eurostat, the item "HICP – annual average rate of change – European Union (annual average inflation rate-European Union)" valid in a calendar year (t- 2). The tariffs for the EU Interconnection Points were for the calendar year 2024 escalated by 9.2% (from the 2023 tariffs) according to the point 11.1. of the relevant price decision.

For the period beginning on 1 January 2025 the tariffs for the EU Interconnection Points including the methodology of their calculation have been set by the price decision of the Regulatory Office for Network Industries No. 0001/2025/P dated 5 June 2024.

The full text of the price decision of the Regulatory Office for Network Industries No. 0040/2019/P dated 29 May 2019 and the price decision of the Regulatory Office for Network Industries No. 0001/2025/P dated 5 June 2024 are available on the website of the Regulatory Office for Network Industries in the section "Plynárenstvo >> Cenové rozhodnutia" and on the website of the transmission system operator eustream, a.s. in the section "Products and Services >> Download >> Prices and Tariffs >> Price decision" (please see the following links):
